HINDI SUMUSUNOD SA BATAS?

Nag-manifestation si Sen. Robin Padilla matapos umano siyang paratangang hindi umano sumusunod sa batas.

Kasunod ito ng anunsyo ni Ombudsman Boying Remulla na hindi umano pinansin ni Padilla ang summons para maghain ng counter-affidavit kaugnay ng obstruction of justice complaint laban sa kaniya.

“Nag-file po kami,” ayon sa senador.

Bumanat si Senador-judge Vicente Sotto III sa pahayag ni Senador-judge Alan Peter Cayetano laban sa pagkuwestyon ni Senador-judge Erwin Tulfo sa paglalaan ng oras ng impeachment court sa mga usaping walang kinalaman sa impeachment trial ni Vice President Sara Duterte.

Sinegundahan ito ni Sotto at sinabing sa regular na sesyon na lamang dapat talakayin ang mga paksang walang kaugnayan sa paglilitis.

The photo on the left was taken in 1910, and it shows two girls having tea with a dog on the front steps of a house in Longmeadow, Massachusetts, and the photo on the right shows the same scene in 2026.

The house was built in 1792 as the home of Walter and Sabina White. The Greek Revival style front entryway is likely a later addition, and probably dates back to around the 1830s. By the early 1900s the house was owned by the Taylor family, and the girls in the 1910 photo are likely sisters Margaret and Caroline Taylor, who were 12 and 6 at the time. During the 1950s, this house was the home of Foster Furcolo, who served as governor of Massachusetts from 1957 to 1961.

Not much has changed in this scene since the 1910 photo, although the door knocker was moved slightly higher on the door. The house is located on the west side of Longmeadow Street, facing the Longmeadow Green, and it is one of the many well-preserved historic 18th century houses here in the town center.

Pedro Sánchez is giving Spain something many countries desperately lack right now: leadership with courage, independence, and principles.

Under his government, Spain refused to let American forces use the Rota and Morón bases for military operations against Iran, rejecting participation in what Sánchez described as an illegal war.

Spain has also become one of Europe's strongest voices for Palestine—supporting Gaza, contributing millions in humanitarian assistance, backing UNRWA, and demanding action against illegal Israeli settlements.

And while politics and football are separate, Spain's extraordinary year became even more unforgettable when the national team defeated Argentina 1–0 after extra time to win the 2026 FIFA World Cup.

Peace abroad. Principles in diplomacy. Pride on the world stage.

Pedro Sánchez did not make Spain great by blindly following powerful allies. He strengthened Spain's image by showing that a country can defend international law, stand with oppressed people, reject unnecessary wars, and still rise globally.

What a moment for Spain.

What a year for the Spanish people.

And what a leader Spain has. 🇪🇸🔥

'SUMUSOBRA NA ANG CHINA COAST GUARD'

READ: Sen. Robin Padilla condemns the China Coast Guard's attack on a Philippine Navy personnel during a confrontation at Ayungin Shoal on Monday, July 20.

"Hindi ako sang-ayon sa digmaan. Ngunit hindi rin ako sang-ayon na ang paghahangad natin ng kapayapaan ay abusuhin at ituring na kahinaan," he stated. "Kapag Pilipino ang sinaktan, hindi maaaring manahimik ang Pilipinas."

Sobra na.

Mariin kong kinokondena ang marahas at agresibong pagkilos ng mga tauhan ng China Coast Guard laban sa ating mga sundalo sa Ayungin Shoal, West Philippine Sea.

Ang pananakit sa isang tauhan ng Philippine Navy gamit ang kahoy na pamalo habang ginagampanan nito ang kanyang tungkulin ay hindi lamang isang simpleng insidente. Isa itong tahasang paglapastangan sa ating mga kawal at isang mapanganib na paglala ng agresyon laban sa mga Pilipinong nagsasagawa ng kanilang lehitimong tungkulin sa lugar na saklaw ng mga karapatang pandagat at hurisdiksiyong pandagat ng Pilipinas alinsunod sa pandaigdigang batas.

Hanggang kailan tayo magtitiis?

Paulit-ulit nating pinipili ang pagpipigil. Paulit-ulit nating iniiwasan ang komprontasyon. Ngunit tila ang ating pagtitimpi ay sinusuklian ng lalo pang panggigipit at karahasan.

Malinaw ang aking paninindigan: hindi maaaring walang hanggan ang ating pasensya habang ang ating mga sundalo ay sinasaktan.

Nananawagan ako sa ating pamahalaan na gumawa ng mas matatag at konkretong hakbang upang protektahan ang ating mga tauhan at ipagtanggol ang ating mga karapatang pandagat at hurisdiksiyon sa West Philippine Sea. Dapat din[illegible] sa ating sundalo. Hindi sapat ang paulit-ulit na protesta kung [illegible]

Nananawagan ako sa ating pamahalaan na gumawa ng mas matatag at konkretong hakbang upang protektahan ang ating mga tauhan at ipagtanggol ang ating mga karapatang pandagat at hurisdiksiyon sa West Philippine Sea. Dapat ding papanagutin ang mga responsable sa pananakit sa ating sundalo. Hindi sapat ang paulit-ulit na protesta kung patuloy naman ang ganitong mga insidente.

Buong saludo ako sa ating mga sundalo na nananatiling disiplinado at propesyonal sa kabila ng matinding probokasyon. Ngunit huwag nating isipin na sila ay basta umatras o nagpaapi. Kahit mas kaunti ang kanilang bilang at walang dalang armas, buong tapang nilang ipinagtanggol ang kanilang sarili at ang ating mga lehitimong karapatang pandagat sa lugar. Sa harap ng mga pamalong kahoy ng China Coast Guard, ginamit nila ang anumang mayroon sila—maging ang kanilang mga sagwan—upang ipagtanggol ang kanilang sarili at panindigan ang kanilang tungkulin.

Hindi sila nagpaawa. Hindi sila umurong. Tumindig sila bilang mga sundalong Pilipino.

Ngunit tungkulin din nating tiyakin na hindi sila paulit-ulit na inilalagay sa panganib nang walang sapat na proteksyon at suporta mula sa kanilang pamahalaan.

Hindi ako sang-ayon sa digmaan. Ngunit hindi rin ako sang-ayon na ang paghahangad natin ng kapayapaan ay abusuhin at ituring na kahinaan.

Sumusobra na ang China Coast Guard.

Kapag Pilipino ang sinaktan, hindi maaaring manahimik ang Pilipinas. Kapag ang ating mga sundalo ang inatake habang ginagampanan ang kanilang lehitimong tungkulin, dapat tayong manindigan.

Ang aking paninindigan ay para sa Pilipinas, para sa ating mga sundalo, at para sa dignidad ng sambayanang Pilipino.

Unity with One is Unity with Three.

The Blessed Trinity is described as having one Divine nature, yet remaining three distinct Persons. As a result, the three distinct Persons share in a perfect unity. In fact, they could not be "united" if they were not distinct from each other. So it's necessary to speak of God as the One in Three. Each one of us is called to share in this same unity. We do not share in the very nature of God by taking on His Divine nature strictly speaking. However, since our humanity has been united with God in Christ, so also our personhood is invited into communion with Him. We are called, as individuals, to enter into a spousal relationship with God. We are called to share in the profound unity of the Holy Trinity. Christ is to live in us, with us and through us. And as we become one with Christ, as a result of His union with our human nature, so also we become one with the Father and the Holy Spirit. This unity with God is the greatest act of Mercy we will ever know. Diary 911-912.

Ponder, today, the mystery of unity. It can be a hard concept to understand and an even harder reality to live. But this is your calling. By the Incarnation, God the Son united the Divine nature with human nature. And by His death and resurrection, He set humanity free from the effects of sin so that we can be drawn up into His divinity. Ponder this. Pray over it. Seek to understand it and ask the Lord for knowledge. The more you grasp this glorious reality, the more you will desire to share in it.

Most Holy Trinity, Father, Son and Holy Spirit, I desire to be one with You. I long to be drawn into Your very life sharing in the Communion you share in Your inner Life. Oh, Holy Trinity, I love You and trust in You

The Vice President
ON TRIAL
WHAT DOES IT MEAN?
UNEXPLAINED WEALTH
A person has unexplained wealth if the value of their wealth is greater than the value of their lawfully acquired wealth.
ILL-GOTTEN WEALTH
Any asset, property, business enterprise or material possession of any person within the purview of Section Two (2) hereof, acquired by him directly or indirectly through dummies, nominees, agents, subordinates and/or business associates.
OBITER DICTUM
Entirely unnecessary for the decision of the case.
DUE PROCESS RIGHTS
All rights which are of such fundamental importance as to require compliance with due process standards of fairness and justice.
Procedural and substantive rights of citizens against government actions that threaten the denial of life, liberty, or property.

Vietnamese Resident Commends Iloilo Police After Helping Recover Friend's Lost Phone

A Vietnamese national living in **Iloilo City** is earning attention on **Threads** after sharing a heartfelt story about how **local police officers helped recover a friend's lost phone**—an experience she said completely changed her perception of reporting lost belongings.

According to her post, **her friend accidentally left his phone inside a Grab vehicle**. Despite repeatedly contacting Grab's help center and submitting a report, they received no immediate response. Using the phone's live location, they realized **the driver appeared to be unaware that the device had been left behind**, as he continued picking up passengers.

Feeling unsure of what to do next, **they called the police**.

She said officers immediately **coordinated with different police stations** while she continuously shared the phone's live location. Police even went to the place where they were staying to assist with the search. Eventually, after also contacting the driver directly, **the phone was safely returned**.

went to the place where they were staying to assist with the search. Eventually, after also contacting the driver directly, **the phone was safely returned**.

The experience stood in stark contrast to what she had encountered in her home country.

"*I truly admire how seriously theft and public safety are taken in Iloilo City. As a foreigner living here, I've always felt safe,*" she wrote.

She also praised both the responding police officers and the Grab driver for their kindness and willingness to help, adding that what impressed her most wasn't just the recovery of the phone—but the **genuine concern shown by everyone involved**.

"*It's not just about feeling safe—it's about how willing they are to help others without expecting anything in return. Thank you so much, Iloilo.*" ❤️

History has been made in Iceland, and not for the reason people expected. 🦟

For generations, Iceland was famous for being one of the few places on Earth without mosquitoes. That has now changed.

Scientists have confirmed the country's first recorded mosquito specimens, consisting of two females and one male, marking a historic first for Iceland.

While researchers have not confirmed that mosquitoes have established a permanent population, the discovery has sparked curiosity about how they arrived and whether climate and environmental changes could allow them to spread in the future.

‘SHE’LL BE BACK SOON’

Iniulat ni Defense Counsel Michael Poa na nasa The Hague, Netherlands si Vice Pres. Sara Duterte.

Sa gitna ito ng gumugulong na impeachment trial ng bise sa Senado.

Ibinahagi rin ni Poa na ni-report na niya kay VP Sara ang pag-subpoena ng Senate Impeachment Court sa kaniyang financial records.

“Okay, well, you know what to do naman,” sabi umano ng bise.

ACID-COOKED FISH 🐟

Kinilaw may look like raw fish, but its science is not that simple.

This Filipino dish uses vinegar, calamansi, dayap, tabon-tabon, green mango, or other sour ingredients to change the texture of fresh seafood without using fire. Instead of heat, kinilaw relies on acid.

When fish is mixed with vinegar or citrus juice, the acid denatures the proteins in the fish. This means the proteins unfold and change structure, making the flesh turn firmer, more opaque, and "cooked-looking."

That is why kinilaw is sometimes described as fish "cooked" in vinegar.

But scientifically, it is better understood as acid-curing or acid-denaturing. The fish changes in texture and appearance, but it is not cooked by heat in the same way as grilled, fried, or boiled seafood.

This difference matters because acid does not always kill harmful microorganisms or parasites the way proper heat cooking can. Kinilaw still depends on fresh seafood, clean preparation, proper storage, and safe handling.

the way proper heat cooking can. Kinilaw still depends on fresh seafood, clean preparation, proper storage, and safe handling.

Kinilaw is also one of the Philippines' oldest known food traditions. Food historians have linked kinilaw-like preparation to archaeological finds in Butuan, where fish bones and tabon-tabon remains have been cited as clues to an early souring method dating back around a thousand years.

Tabon-tabon, a fruit used in some Visayan and Mindanao kinilaw traditions, is especially interesting because it helps reduce the fishy taste and balances acidity. It shows that kinilaw is not just "raw fish with vinegar," but a careful local food technique shaped by ingredients, environment, and culture.

Thus, it is acid, protein, seafood, sour fruits, and tradition coming together in one dish — no fire needed.

BASTE DUTERTE'S VIDEO PLAYED IN VP SARA'S TRIAL

The prosecution played a portion of Davao City Mayor Sebastian "Baste" Duterte's video at the RAGE Coalition launch on April 12, 2026, wherein he uttered "Isang ulo lang naman ang kailangan namin - ang ulo ni Bongbong Marcos."

"'Yung video na iyan ay amin pong naikumpara sa mga naging pahayag ng ating bise presidente kung saan meron din po kaming video na binalikan na ang ating bise presidente ay nagre-refer din po sa pagtanggal ng ulo ng ating pong presidente. Kaya nakita po namin ang pagkakahambing ng statement ng atin pong mayor at vice president Sara Duterte," said NBI director Melvin Matibag, the prosecution's last witness for Article IV.

Day 7: Chel Diokno, man of the hour👏

Sharing:

The Cayetano siblings continue what many observers perceive as condescending lectures and political grandstanding during the impeachment proceedings. Their repeated distinction between lawyers and non-lawyers, often delivered in a manner that some find patronizing, has become increasingly irritating to many who believe that constitutional governance is not the exclusive domain of lawyers. The Constitution belongs to every Filipino, and every senator, whether a lawyer or not, took the same oath to uphold and defend it.

In sharp contrast, Atty. Chel Diokno's calm, measured, and erudite advocacy has stood out. Rather than relying on rhetoric or hypotheticals, he has anchored his arguments on Supreme Court jurisprudence, constitutional principles, and a clear mastery of courtroom procedure.

His restrained yet authoritative presentation serves as a powerful rebuttal—not through raised voices or lengthy lectures, but through the force of law, reason, and precedent. In the end, legal scholarship is best demonstrated through humility and persuasive reasoning, not

It's DECISION TIME for LeBron James 👑⏳

The clock is ticking on LeBron’s 24th season. Despite social media rumors of an imminent 48-hour announcement, Klutch Sports agent Rich Paul confirms there is no official decision or set timetable just yet.

The pitches are complete, and the choice is entirely in the King's hands. All eyes remain on Cleveland, Miami, Golden State and Philly as the league waits for the ultimate offseason domino to fall. 🔥

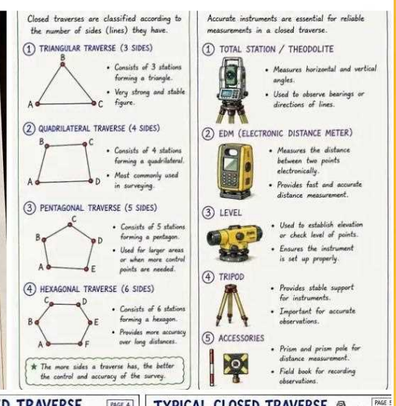
TYPICAL CLOSED
TRAVERSE
INTRODUCTION TO CLOSED TRAVERSE
WHAT IS A CLOSED TRAVERSE?
A closed traverse is a series of connected survey lines that form a closed loop, ending at the same point where the survey started or at another known control point.
It is one of the most common surveying methods used to determine the positions of points while checking the accuracy of field measurements.
PURPOSE OF A CLOSED TRAVERSE
✓ Establish horizontal control points.
✓ Determine the coordinates of unknown points.
✓ Check measurement accuracy through closure.
✓ Produce reliable maps and engineering layouts.
CLOSING BACK TO KNOWN POINT (A)
CHARACTERISTICS
• Starts from a known control point.
• Ends at the same or another known point.
• Every line has a measured distance and bearing.
• Forms a complete polygon (triangle, quadrilateral, pentagon, etc.).
BASIC PARTS
1 Traverse Stations — Points connected by survey lines (A, B, C, D, E).
2 Traverse Lines — Straight lines between stations.
3 Bearings — Direction of each line.
4 Distances — Length of each line.
PAGE 1



Closed traverses are classified according to the number of sides (lines) they have.
1 TRIANGULAR TRAVERSE (3 SIDES)
• Consists of 3 stations forming a triangle.
• Very strong and stable figure.
2 QUADRILATERAL TRAVERSE (4 SIDES)
• Consists of 4 stations forming a quadrilateral.
• Most commonly used in surveying.
3 PENTAGONAL TRAVERSE (5 SIDES)
• Consists of 5 stations forming a pentagon.
• Used for larger areas or when more control points are needed.
4 HEXAGONAL TRAVERSE (6 SIDES)
• Consists of 6 stations forming a hexagon.
• Provides more accuracy over long distances.
* The more sides a traverse has, the better the control and accuracy of the survey.

Accurate instruments are essential for reliable measurements in a closed traverse.
1 TOTAL STATION / THEODOLITE
• Measures horizontal and vertical angles.
• Used to observe bearings or directions of lines.
2 EDM (ELECTRONIC DISTANCE METER)
• Measures the distance between two points electronically.
• Provides fast and accurate distance measurement.
3 LEVEL
• Used to establish elevation or check level of points.
• Ensures the instrument is set up properly.
4 TRIPOD
• Provides stable support for instruments.
• Important for accurate observations.
5 ACCESSORIES
• Prism and prism pole for distance measurement.
• Field book for recording observations.

CAYETANO TO MATIBAG: WILL YOU NOT BELIEVE NOONG SINABI NIYANG [SARA DUTERTE] 'KUNG AKO NAMAN ANG PAPATAYIN'?

Senator-judge Alan Cayetano questioned NBI director Melvin Matibag on the agency's process of investigating Vice President Sara Duterte's "kill threat" video.

"Paano 'yung proseso n'yo or 'yung naging thinking n'yo na itong ipapapatay 'yung Presidente, paniniwalaan ko, pero itong siya ang papatayin, hindi ko paniniwalaan, at itong graft and corruption, hindi ko paniniwalaan?" he asked Matibag.

"Kung sa grave threat po ang pag-uusapan natin, 'yung threat na 'yan is absolute... 'Yun pong kanyang sinasabi na 'kung papatayin ako,' that is supposed to be statement niya, sa amin pong pananaw, just to cover na siya'y may kinausap para patayin ang Pangulo," Matibag explained.

'KAPAG MAS MATAAS ANG TRUST RATING, IBIG SABIHIN WALA NG BETRAYAL OF THE PUBLIC TRUST?'

Senator-judge Kiko Pangilinan clarified the distinction between trust ratings based on surveys and betrayal of public trust during his interjection to NBI director Melvin Matibag in Vice President Sara Duterte's impeachment trial on Tuesday.

"'Yung atin pong mga survey is only a snapshot ng mga nangyayari [...] Hindi po natin ito pwedeng maging basehan sa pag-iimbestiga," Matibag explained.

"'Yung trust rating po is base sa numero dahil sa survey. 'Yung betrayal of public trust, malinaw naman 'yan na nakasaad sa konstitusyon na ito ay isang basehan ng impeachment," he added.

NAG-OBJECT SA PAG-SUBPOENA SA VP SARA RECORDS

Limang senador ang nagsumite ng written objection sa desisyon ng Senate Impeachment Court na i-subpoena ang financial records ni Vice Pres. Sara Duterte.

Ayon kay Impeachment Court spokesperson Regie Tongol, kabilang dito ang magkapatid na sina Sen. Alan Peter Cayetano at Sen. Pia Cayetano, Sen. Camille Villar, Sen. Loren Legarda, at Sen. Imee Marcos.

Gagamitin ang mga dokumento para sa pagtalakay sa impeachment article tungkol sa umano'y unexplained wealth ng bise.

Ipadadala na ng Impeachment Court ang subpoena sa concerned agencies at banks sa Miyerkules, July 22. Bibigyan sila ng July 30 deadline para isumite ang mga dokumento ni VP Sara.

BAHAGI NG OPLAN TOKHANG?

Binasa ni National Bureau of Investigation (NBI) Director Atty. Melvin Matibag ang affidavit ng self-confessed Davao Death Squad hitman na si Arturo Lascañas tungkol sa umano'y pagkakadawit ni Vice Pres. Sara Duterte bilang "architect" ng Oplan Tokhang.

Ayon kay Matibag, ginamit ito ng NBI special task force sa kanilang imbestigasyon sa "pattern of violence" sa umano'y pagbabanta ni VP Sara.

Tinawag ito ng Defense bilang "mere scrap of paper" dahil hindi ito napanotaryo at napirmahan.

Nagpasya si Presiding Officer Chiz Escudero na pahintulutan ang affidavit hindi para patunayan ang nilalaman nito kundi para ipuntong ginamit ito sa imbestigasyon ng NBI.

'DI NATIBAG SI MATIBAG?

Iginiit ni House Prosecutor Terry Ridon na hindi natibag ng Defense Team ni Vice Pres. Sara Duterte ang isinalang nilang Prosecution witness na si National Bureau of Investigation (NBI) director Atty. Melvin Matibag.

Si Matibag ang huling testigo ng Prosekusyon para sa pagtalakay sa fourth impeachment article na may koneksyon sa umano'y pagbabanta ni VP Duterte kay Pres. Bongbong Marcos at iba pang opisyal.

Muling sasalang ang NBI director sa pagpapatuloy ng cross-examination ng Depensa sa Miyerkules, July 22.

Hindi ho natibag si Director Matibag ngayon pong araw na 'to. I'm quite certain, bukas, hindi po siya matitibag.

I WILL STOP THE HURRICANE!
The Philippine once tried to modify a Typhoon
The Philippines will be hosting the Miss Universe for the first time on 21 July 1974, but tropical cyclone 'ILIANG' (IVY) threatens Luzon.
A promise of good weather
When a succession of warnings was issued regarding the potential impact of the typhoon on Metro Manila, some organizers were already considering canceling the scheduled coronation on July 21, 1974. Amidst the people's panic, First Lady Imelda Marcos calmly announced the words:
"I will stop the hurricane!"
Silver iodide (AgI)
The former First Lady immediately ordered the Philippine Air Force to conduct 'cloud seeding operations' to alter the impending weather conditions. The U.S. Air Force also dispatched an aircraft from Guam to help disperse the cloud cover.
The planes 'showered' the thick clouds with 'silver iodide bombs' so that the rain would fall elsewhere, leaving Metro Manila with clear skies.
The weather in Metro Manila temporarily 'improved' a bit, but it was immediately followed by heavy rains after 24 hours. The pageant continued at the Folk Arts Theater, crowning Amparo Muñoz of Spain as the Miss Universe 1974.
Around 20 people lost their lives, and several areas in Central Luzon suffered severe damage.
